

YOU DON'T HAVE TO HAVE IT ALL FIGURED OUT.

You bring your questions and ideas. I'll bring my experience, connections, and a plan to help you find your way home.

What can I comfortably spend?

We'll start with what feels comfortable for you. I can connect you with a lender, and together we'll get a clearer picture of the monthly payment and money you'll need upfront.

What homes might I be missing?

I can help you explore homes listed by real estate companies throughout our area. I use a shared listing system and connections with other agents to find possibilities, including many homes that may not appear on public websites. Send me anything that catches your eye. I'll look into it and help arrange a visit.

What happens when I find it?

That's what I'm here for! Tell me what you're thinking. I'll offer my advice, put your offer together, and coordinate what comes next. You'll have someone keeping track of all the details and letting you know when something needs your attention.

No question is too small. I'm only a text away.
