

BRING YOUR QUESTIONS. WE'LL START THERE.

We'll start with a conversation about your home and your plans. I'll keep track of the details, explain your choices, and guide you through one step at a time.

Where do I start?

Let's walk through your home together. I'll help you decide what needs attention and what can stay as it is. Then I'll arrange professional photos and take care of putting your home on the market.

How much will I walk away with?

I'll help you choose an asking price and put together a simple estimate of what you could receive. We'll account for your remaining mortgage and the usual costs of selling a home. That way, you can plan your next move with a clearer picture.

What happens when an offer comes in?

We'll go through it together. I'll explain what the buyer is asking for, answer your questions, and give you my expert advice. You decide what feels right, and I'll handle the conversations and paperwork to move things forward.

No question is too small. I'm only a text away.
